

Da LibKey a BrowZine passando per Nomad

Dott.ssa Valeria Scotti v.scotti@smatteo.pv.it Servizio di documentazione scientifica Fondazione IRCCS Policlinico San Matteo di Pavia

Third Iron, LLC, una delle principali società di tecnologia dell'informazione che sviluppa servizi innovativi per biblioteche, editori e i loro utenti;

I loro servizi semplificano e accelerano il modo in cui gli utenti arrivano al testo completo;

Insieme, i servizi Third Iron offrono alle biblioteche una moderna strategia di accesso digitale che fa risparmiare ai ricercatori i click per arrivare all'articolo, riduce le richieste di Document Delivery non necessarie e soddisfa le aspettative di studenti, docenti e ricercatori;

In Italia la suite dei loro prodotti viene fornita e gestita dalla Cenfor International.

www.cenfor.it

LibKey: vantaggi

- minimizza 'click' al full text
- uso intuitivo da parte degli utenti
- configurazione personalizzata per gli enti
- attivo nei principali database
- copertine delle principali riviste

opional anesithesis (IVRA) for hand surgery ribed in 1908, and is epirtymoodly known as "A neuthosis is obtained by the intravensus I anesthetics in a previously essanguinted al from the test of the circulation by a sme 1A). This groceshare is reliable, costto administer by delide powersel.¹⁻¹ It is a

widely accepted sedminger well saited for relatively beir supprise on the extremities.¹ However, IVRA is seen established drawbacks. The duration of DVRA is limited by concerns over limb tachenia due to containous inflation of the cuff. Moreover, continuous inflation of the cuff a paintil, and commonly necessitatist deep solutions or tuminating the Bier block and initiating general anesthesia. Deflation of the cuff, especially if isadvertent or premature, can release a large monet of local anesthetic into the systemic circulation, which can cause server toxicity.⁶ TVRA does not preside postaperative pain relief, so that systemic medication like opicials or regional anesthetic techniques have to be med. We hypothesized that these drawbacks of IVRA could be addressed by manesencapsulation of the local anesthetic. Nanoparticles have a large surface area-to volume ratus, which facilitates attachment to bisinterfaces." Nanoparticles with facilitates attachment to bisinterfaces." Nanoparticles pentruting periodes (CPP), may have increased biointerface attachment and/or enhanced tissue penetration, ¹¹⁻¹² Immobilization of nanoparticles within the vaculature of the limb, together with the surtained release properties of the nanoparticles, could provide prolenged local anesthesia, and also minimize the release of drug from the limb to the systemic circulation once the toursignet is removed.

Lipid-based formulations, including micelles and liposomes have been used extensively to deliver local anesthetics.¹⁵ When deprotonated, the drugs are able to incorporate into the lipid

LibKey.io è un sito web che collega i ricercatori all'articolo desiderato, all'interno del posseduto della biblioteca.

Il modulo di accesso alla tecnologia LibKey.io è costituito da un'unico campo di ricerca, molto intuitivo, nel quale il ricercatore può immettere il DOI o PMID all'articolo desiderato e ottenere con un *singolo click* il full text in formato PDF.

La tecnologia LibKey verifica le informazioni sugli e-journal, l'autenticazione dell'utente e il collegamento al full text dell'articolo e restituisce i risultati in millisecondi.

Inoltre, include dati Unpaywall per fornire articoli Open Access quando non siano disponibili in abbonamento.

E' personalizzabile: l'utente può impostare le preferenze di formato degli articoli da visualizzare: PDF, HTML o altre versioni disponibili.

Unpaywall..breve accenno

Unpaywall è un'estensione per browser web gratuita che cerca le versioni free di articoli anche a pagamento in tantissime riviste e repository in tutto il mondo, inclusi i server di preprint e i database istituzionali.

Unpaywall trova quindi i pdf caricati legalmente dagli stessi autori.

Una volta installato in Google Chrome o Mozilla Firefox, Unpaywall visualizza una scheda verde o grigia sul lato dello schermo quando un utente incontra un articolo a pagamento.

Un segno di "sblocco" verde indica che una versione gratuita dell'articolo è disponibile altrove, mentre un'icona grigia a forma di lucchetto indica che lo strumento non è in grado di individuare una versione gratuita.

La consultazione degli articoli proposti da Unpaywall <u>è dunque legale</u>, in quanto non viola l'accesso di piattaforme a pagamento ma propone il link, laddove disponibile, della versione consultabile dell'articolo.

NEW_2022!!!

BROWZINE: come vedere in un'unica interfaccia l'elenco delle riviste sottoscritte centralmente da BIBLIOSAN, raggruppate anche per discipline e sottodiscipline. Ogni utente può personalizzare il proprio Browzine in modo da visualizzare solo le riviste di proprio interesse, salvare gli articoli da leggere in una area personale nonchè ricevere avvisi via e-mail (o tramite app) su nuovi articoli li pubblicati. (Vedi istruzioni online)

LIBKEY.IO: Recupera il full text di articolo scientifico mediante DOI o PMID (vedi istruzioni online)

- Immettere il Pmid o il Doi dell'articolo nella nella search box
- Si aprirà una nuova scheda con varie opzioni

Panoramica

Compatibile con il dispositivo

One-click access to millions of scholarly articles.

Supported by over 1,300+ libraries in more than 35 countries!

LibKey Nomad automatically provides instant links to articles from journals subscribed to by your library – and Open Access sources – connecting you to literature discovered on the web. LibKey Nomad works with your library to determines the fastest path to content across thousands of publishers and millions of articles. LibKey Nomad also adds in-line enhancements to popular sites like PubMed, Wikipedia, Scopus, Web of Science and more.

After installation, LibKey Nomad prompts you to select your institution. Simply select it and LibKey Nomad will then notify you of available articles wherever you may roam.

LibKey Nomad is a great addition to other research aids you may be using, such as BrowZine, EndNote Click, Lean Library, and more.

A lato la 'legenda' delle possibilità che vi offre il Nomad (e Libkey.io) : dal download diretto, al collegamento con NILDE, a Browzine, alla pagina HTML

NB: essendo l'estensione collegata al catalogo Bibliosan, chi ha un catalogo suo personalizzato non potrà accedere alle proprie risorse aggiuntive.

LibKey Link

LibKey Link fornisce all'utente il collegamento **diretto al PDF**, con un solo clic, da PubMed. E' disponibile per tutte le biblioteche che utilizzano **l'Outside Tool linking di PubMed**.

LibKey Link accelera automaticamente il processo di riconoscimento dell'utente, in quanto riconosce il posseduto di un'istituzione e l'autenticazione.

Quando non è possibile un link diretto, LibKey Link riporta automaticamente l'utente al tradizionale percorso del **Link Resolver**, senza rallentare l'esperienza utente.

Per impostare il collegamento a LibKey Link è stata modificata la URL di **Outside Tool** all'interno di Pubmed: da quella del 360Link di Bibliosan a quella fornita per Libkey.

BrowZine

- BrowZine è una piattaforma online per visualizzare e sfogliare le riviste elettroniche.
- Facilita la navigazione e offre strumenti di personalizzazione per trovare, leggere, salvare e monitorare gli articoli delle riviste.
- **BrowZine,** è accessibile tramite computer (browser) BrowZine Web oppure smartphone o tablet (app) BrowZine Mobile.
- Le modifiche apportate in una versione (Web o Mobile) a My Bookshelf o My Articles saranno sincronizzate su tutti i vari dispositivi.
- Tramite BrowZine, l'utente può ricercare alfabeticamente il Periodico d'interesse, o sfogliare la collezione della Biblioteca per Area disciplinare o Soggetto;

BrowZine

- L'utente ha a disposizione un'Area personale (Scaffale –My Bookshelf) in cui salvare i titoli o gli articoli di interesse, per <u>sfogliarli e leggerli anche offline</u>, ricevere segnalazioni di nuovi fascicoli tramite servizi di alerting via email;
- Selezionare Bibliosan quando viene richiesta la biblioteca di appartenenza in fase di registrazione.
- E' possibile esportare citazioni in vari gestori bibliografici tra cui Endnote, Refworks e Zotero.
- Per accedere con l'app, dovete essere autenticati con il vostro Clas/OCLC di Bibliosan o sotto rete wi-fi del vostro ente.
- > NB: Copertura dei fascicoli a partire dal 2005

BrowZine (via app)

Android Tablets and
Smartphones with OS v4.14

All iPads, iPhones and iPod Touches with iOS v8.x*

Kindle Fire HD Tablets

- Cerca BrowZine nello store del proprio smartphone oppure tablet
- Dopo aver scaricato e installato la App di BrowZine sul dispositivo mobile, seleziona Bibliosan dall'elenco a discesa delle biblioteche in fase di registrazione
- Se si accedi a BrowZine da fuori rete del proprio ente, vi verrà chiesto di autenticarti.

BrowZine dal sito Bibliosan

NEW_2022!!!

BROWZINE: come vede e in un'unica interfaccia l'elenco delle riviste sottoscritte centralmente da BIBLIOSAN, raggruppate anche per discipline sottodiscipline. Ogni atente può personalizzare il proprio Browzine in modo da visualizzare solo le riviste di proprio interesse, salvare gli articoli da leggere in una area personale nonchè ricevere avvisi via e-mail (o tramite app) su nuovi articoli lì pubblicati. (<u>Vedi istruzioni online</u>)

LIBKEY.IO: Recupera il full text di articolo scientifico mediante DOI o PMID (vedi istruzioni online)

Potete eseguire una ricerca per nome del periodico, ISSN oppure potete selezionare un'area di interesse per vedere quali journals sono in catalogo.

BrowZine dal sito Bibliosan

Es: selezionando la categoria Biomedical Health Sciences, possiamo decidere se scorrere tutti i journals (ALL) o selezionare ulteriormente una Materia di specifico interesse (ad es: Medical Biology)

BrowZine presenterà le riviste raggruppate per quella materia/area di interesse (ad es: Molecolar Cell Biology)

Per ogni Journal viene mostrata la copertina

BrowZine: selezioniamo una rivista

Bookcase 4 54x91 54x92 13x973 54x95	Shelf3			
	Bielf 4			

Nel My Bookshelf vi sono 4 scaffali in cui potete aggiungere le riviste di vostro gradimento

Si possono spostare le riviste tra gli scaffali e rinominare gli scaffali (ad es: per argomento)

Visualizzazione del mio scaffale: le bolle rosse con i numeri indicano i nuovi articoli.

BrowZine: creiamo una libreria

Spostare un periodico su un nuovo scaffale o libreria mentre usi BrowZine Web:

1) Posiziona il mouse nell'angolo in alto a destra per attivare l'icona

Move...

Delete

2) Fai clic su MOVE

3) Fai click su una freccia a lato per posizionare il periodico in quel punto.

BrowZine: My Articles

Per utilizzare My Bookshelf e My Articles è necessario registrarsi (la stessa email/password funziona per entrambi).

Se ti sei già registrato a My Bookshelf, non sono necessari ulteriori passaggi per My Articles.
My Articles ti permette di salvare e accedere fino a 500 articoli, in una o più collezioni.

Da BrowZine Web, sposta il mouse sulle icone per far apparire la parola **Save to My articles**.

Posso salvarlo in una parte generale o creare una nuova cartella.

BrowZine: My Articles

Da BrowZine Web, fai clic su My Articles per aprire le collezioni e visualizzare gli articoli salvati nelle vari cartelle o eliminare un riferimento con delete article

BrowZine: Embargo o non accesso

Nel caso di non accesso ad una rivista per Embargo o non abbonamento ad essa posso sempre aggiungerla nei my articles ma per avere il pdf si attiverà il modulo NILDE

Le icone a disposizione non comprendo quella del pdf. Selezionare la prima **Link to article.** Il sistema ci indirizzerà verso il modulo **NILDE**

Dall'app, selezionate l'ente Bibliosan e successivamente vi verranno chieste le credenziali di accesso a Bibliosan

Troverete le stesse funzionalità rispetto al web. Se siete sotto clas o in wi-fi del vostro ente potete scaricare i pdf per poi leggerli anche in un secondo momento.

Per <u>spostare</u> i periodici su nuovi scaffali o su una libreria diversa, basterà toccare la copertina con il dito finché tutti i periodici vibrano e poi trascinalo dove si vuole. I pallini rossi mostrano i nuovi articoli. Potete aggiungere nuovi articoli dai periodici e inserirli nello scaffale prescelto

BrowZine: Da APP a...

Nel caso di rivista non in abbonamento o con embargo. Potete aggiungere l'articolo ma l'app vi informerà della mancanza di full text.
